

PRO BLUE

PONGO

PORTABLE TOILET SACHETS FOR ALL TYPES OF PORTABLE TOILETS

“PRO BLUE” IS A NEW GENERATION CLEANING RANGE FORMULATED WITH BIOLOGICAL ACTIVES SUCH AS PRO-ACTIVE BACTERIA AND ENZYMES DERIVED FROM BACTERIA.

PRO BLUE PONGO SACHETS have been specially designed to deodorise and safely maintain holding tanks in portable toilets and motorhome port-a-loos.

Unlike competitor products that use heavy disinfectants (formaldehyde, glutaraldehyde, quaternary ammonium compounds, preservatives) to control odours, **PRO BLUE PONGO** utilises a combination of composting bacteria, with an enhanced and buffered regime of life support to promote their propagation.

They are loaded with pro-active bacteria - a species of 'probiotic' live bacteria. "Probiotic" species of bacteria are micro-organisms that have claimed health benefits when consumed and are commonly consumed as part

of fermented foods with specially added active live cultures, such as in yogurt, soy yogurt, or as dietary supplements.

Each **PRO BLUE PONGO SACHET** contains in excess of 1.5 billion pro-active bacteria - to digest waste, paper and sludge, eliminating the source of unpleasant odours rather than just masking them. These beneficial new strains of bacteria colonise the holding tank, keeping pipes and valves clear and free of odours. For disposal of holding tank contents into septic systems or treatment plants, the species of bacteria are ideally suited to boosting biological performance.

PRO BLUE PONGO SACHETS ARE

- ✓ Readily biodegradable
- ✓ Charged with pro-active bacteria
- ✓ Eliminates odours - removes the cause of odours
- ✓ Prevents blocked valves and pipes
- ✓ Lubricates valves and seals
- ✓ Breaks down waste and paper
- ✓ Phosphate free
- ✓ Formaldehyde & Glutaraldehyde free
- ✓ Septic safe - designed to be dispensed to conventional septics, waste water treatment plants, and grey water systems
- ✓ Grey water safe - breaks down into nutrients that are safe for the garden
- ✓ User friendly : non-toxic and non-corrosive
- ✓ Each PRO BLUE PONGO SACHET is individually wrapped in soluble film - no need for any contact
- ✓ Low VOC (Volatile Organic Carbon <1.0%)
- ✓ Loaded with aromatic fragrance
- ✓ Value for money - last for weeks
- ✓ A unique blend of 'green' surfactants, scale inhibitors and live bacteria endospores for optimum results
- ✓ MADE IN AUSTRALIA

DIRECTIONS FOR USE

PRO BLUE PONGO SACHETS with pro-active bacteria are suitable for use in the waste holding tank of all types of portable toilets and port-a-loos. **PRO BLUE PONGO SACHETS** are wrapped in water soluble film, so no need to unwrap - the wrapper will dissolve quickly with use in water. Place one wrapped **PRO BLUE PONGO SACHET** per waste-holding tank capacity. Add more if required. Add 2 - 3L of water to activate and ensure optimal performance.

BIODEGRADABILITY

The surfactants used in PRO BLUE PONGO SACHET are readily biodegradable according to Australian Standard AS 4351. Made in Australia by an Australian owned company.

HEALTH & SAFETY

NOTE - PRO BLUE PONGO is packaged in safe to dispense soluble film sachets. No adverse health effects expected if the product is handled in accordance with the product label.
