Use Instructions

Shake well before use.

To kill flying insects: One short spray in the direction of flying insects is adequate for effective knockdown and kill.

For complete treatment of average sized room:

Close all doors and windows, making sure all people and animals are out of the room, then spray high in the air for 4-5 seconds. The product begins to act immediately on contact with insects. Ventilate room thoroughly before re-entry.

To kill crawling insects:

Spray directly on the insects.
