

## SAFETY DATA SHEET

### Kresto Special

According to the Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice, 2021. This Safety Data Sheet has been prepared in accordance with the Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice (Safe Work Australia, February 2016).

#### SECTION 1: Identification: Product identifier and chemical identity

##### Product identifier

**Product name** Kresto Special

**Product No.** KSP250ML-AUS, KSP2LT-AUS, KSP4LTR-AUS

##### Relevant identified uses of the substance or mixture and uses advised against

**Application** Hand cleaner.

##### Details of the supplier of the safety data sheet

**Supplier** SC Johnson Professional Pty Ltd  
160 Epping Road  
Lane Cove  
NSW 2066  
Australia  
Phone: 1800 090 330

**New Zealand** SC Johnson Professional NZ Limited  
79 Queen Street  
Auckland 1010  
New Zealand  
Phone: 0800 332 695

##### Emergency telephone number

**Emergency telephone** NSW Poisons Information Centre Contact 131126  
New Zealand call 0800 764 766

#### SECTION 2: Hazard(s) identification

##### Classification of the substance or mixture

**Physical hazards** Not Classified

**Health hazards** Skin Irrit. 2 - H315 Eye Dam. 1 - H318

**Environmental hazards** Not Classified  
3.1B, 6.4A

**HSNO Category:**  
DANGER

**Label elements**  
H315 Causes skin irritation.

**Signal word**  
H318 Causes serious eye damage.

**Hazard statements**

## Kresto Special

|                                       |                                                                                                                                                                                                                        |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Precautionary statements</b>       | P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>P332+P313 If skin irritation occurs: Get medical advice/ attention. |
| <b>Supplemental label information</b> | Eye protection not required normally but wear eye protection if you are conducting an operation where there is a risk of this product getting in the eyes.<br>Skin irritation is not anticipated when used normally.   |
| <b>Contains</b>                       | ALCOHOLS, C12-14 ETHOXYLATED                                                                                                                                                                                           |

### SECTION 3: Composition and information on ingredients

#### Mixtures

|                                                                                           |               |
|-------------------------------------------------------------------------------------------|---------------|
| <b>ALCOHOLS, C12-14 ETHOXYLATED</b>                                                       | <b>10-30%</b> |
| CAS number: 68439-50-9                                                                    |               |
| M factor (Acute) = 1                                                                      |               |

### SECTION 4: First aid measures

#### Description of first aid measures

|                     |                                                                                                                                                                                  |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | Move affected person to fresh air at once. Get medical attention if any discomfort continues.                                                                                    |
| <b>Ingestion</b>    | Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention.                                         |
| <b>Skin Contact</b> | Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation persists after washing.                                              |
| <b>Eye contact</b>  | Remove affected person from source of contamination. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention. |

#### Most important symptoms and effects, both acute and delayed

|                     |                                                                        |
|---------------------|------------------------------------------------------------------------|
| <b>Inhalation</b>   | Irritation of nose, throat and airway.                                 |
| <b>Ingestion</b>    | May cause discomfort if swallowed. May cause stomach pain or vomiting. |
| <b>Skin contact</b> | Skin irritation.                                                       |

## Kresto Special

**Eye contact** Causes serious eye damage.

### Indication of any immediate medical attention and special treatment needed

**Notes for the doctor** No specific recommendations. If in doubt, get medical attention promptly.

## SECTION 5: Firefighting measures

### Extinguishing media

**Suitable extinguishing media** The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.

### Special hazards arising from the substance or mixture

**Hazardous combustion products** Does not decompose when used and stored as recommended.

### Advice for firefighters

**Protective actions during firefighting** No specific firefighting precautions known.

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

**Personal precautions** Wear protective clothing as described in Section 8 of this safety data sheet.

### Environmental precautions

**Environmental precautions** Collect and dispose of spillage as indicated in Section 13. Avoid discharge to the aquatic environment.

### Methods and material for containment and cleaning up

**Methods for cleaning up** Stop leak if safe to do so. Absorb in vermiculite, dry sand or earth and place into containers. Flush contaminated area with plenty of water. Avoid contamination of ponds or watercourses with washing down water.

### Reference to other sections

**Reference to other sections** For personal protection, see Section 8. For waste disposal, see Section 13.

## SECTION 7: Handling and storage, including how the chemical may be safely used

### Precautions for safe handling

**Usage precautions** Wear appropriate clothing to prevent skin contamination. Avoid contact with skin and eyes. Avoid spilling.

### Conditions for safe storage, including any incompatibilities

**Storage precautions** Store at temperatures between 0°C and 30°C.

### Specific end use(s)

**Specific end use(s)** The identified uses for this product are detailed in Section 1.

## SECTION 8: Exposure controls and personal protection

**Ingredient comments** None.

### Exposure controls

## Kresto Special

### Protective equipment

#### Eye/face protection

Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Wear tight-fitting, chemical splash goggles or face shield. Personal protective equipment for eye and face protection should comply with Australia/New Zealand Standard AS/NZS 1337.

#### Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. To protect hands from chemicals, gloves should comply with Australia/New Zealand Standard AS/NZS 2161. The selected gloves should have a breakthrough time of at least 8 hours. The most suitable glove should be chosen in consultation with the glove supplier/manufacture, who can provide information about the breakthrough time of the glove material.

#### Hygiene measures

Good personal hygiene procedures should be implemented. When using do not eat, drink or smoke.

### SECTION 9: Physical and chemical properties

#### Information on basic physical and chemical properties

|                                 |                                                             |
|---------------------------------|-------------------------------------------------------------|
| Appearance                      | Viscous liquid. Suspension.                                 |
| Colour                          | Beige.                                                      |
| Odour                           | Perfume.                                                    |
| Odour threshold                 | Not determined.                                             |
| pH                              | No information available.                                   |
| Melting point                   | <-15°C                                                      |
| Initial boiling point and range | >100°C @ 1013 mbar                                          |
| Flash point                     | > 100 °C                                                    |
| Evaporation rate                | Not determined.                                             |
| Flammability Limit - Lower(%)   | Not applicable.                                             |
| Vapour pressure                 | Not determined.                                             |
| Vapour density                  | Not determined.                                             |
| Relative density                | ~ 1.131 @ 20°C                                              |
| Solubility(ies)                 | Soluble in water.                                           |
| Partition coefficient           | Scientifically unjustified.                                 |
| Auto-ignition temperature       | 365°C                                                       |
| Decomposition Temperature       | Not determined.                                             |
| Viscosity                       | <22,000 mPa s @ 20°C                                        |
| Explosive properties            | Scientifically unjustified.                                 |
| Oxidising properties            | Does not meet the criteria for classification as oxidising. |
| Other information               | None.                                                       |

## Kresto Special

### SECTION 10: Stability and reactivity

|                                           |                                                                     |
|-------------------------------------------|---------------------------------------------------------------------|
| <b>Reactivity</b>                         | There are no known reactivity hazards associated with this product. |
| <b>Stability</b>                          | Stable at normal ambient temperatures.                              |
| <b>Possibility of hazardous reactions</b> | Not applicable.                                                     |
| <b>Conditions to avoid</b>                | Avoid excessive heat for prolonged periods of time. Avoid freezing. |
| <b>Materials to avoid</b>                 | None.                                                               |
| <b>Hazardous decomposition products</b>   | Does not decompose when used and stored as recommended.             |

### SECTION 11: Toxicological information

#### Information on toxicological effects

##### Acute toxicity - oral

|                                     |                                                                  |
|-------------------------------------|------------------------------------------------------------------|
| <b>Notes (oral LD<sub>50</sub>)</b> | Based on available data the classification criteria are not met. |
| <b>ATE oral (mg/kg)</b>             | 9,625.8                                                          |

##### Acute toxicity - dermal

|                                       |                                                                  |
|---------------------------------------|------------------------------------------------------------------|
| <b>Notes (dermal LD<sub>50</sub>)</b> | Based on available data the classification criteria are not met. |
|---------------------------------------|------------------------------------------------------------------|

##### Acute toxicity - inhalation

|                                           |                                                                  |
|-------------------------------------------|------------------------------------------------------------------|
| <b>Notes (inhalation LC<sub>50</sub>)</b> | Based on available data the classification criteria are not met. |
|-------------------------------------------|------------------------------------------------------------------|

##### Skin corrosion/irritation

|                                  |                         |
|----------------------------------|-------------------------|
| <b>Skin corrosion/irritation</b> | Causes skin irritation. |
|----------------------------------|-------------------------|

##### Serious eye damage/irritation

|                                      |                            |
|--------------------------------------|----------------------------|
| <b>Serious eye damage/irritation</b> | Causes serious eye damage. |
|--------------------------------------|----------------------------|

##### Respiratory sensitisation

|                                  |                                                                  |
|----------------------------------|------------------------------------------------------------------|
| <b>Respiratory sensitisation</b> | Based on available data the classification criteria are not met. |
|----------------------------------|------------------------------------------------------------------|

##### Skin sensitisation

|                           |                                                                  |
|---------------------------|------------------------------------------------------------------|
| <b>Skin sensitisation</b> | Based on available data the classification criteria are not met. |
|---------------------------|------------------------------------------------------------------|

##### Germ cell mutagenicity

|                               |                                                                  |
|-------------------------------|------------------------------------------------------------------|
| <b>Genotoxicity - in vivo</b> | Based on available data the classification criteria are not met. |
|-------------------------------|------------------------------------------------------------------|

##### Carcinogenicity

|                        |                                                           |
|------------------------|-----------------------------------------------------------|
| <b>Carcinogenicity</b> | Does not contain any substances known to be carcinogenic. |
|------------------------|-----------------------------------------------------------|

##### Reproductive toxicity

|                                          |                                                                    |
|------------------------------------------|--------------------------------------------------------------------|
| <b>Reproductive toxicity - fertility</b> | Does not contain any substances known to be toxic to reproduction. |
|------------------------------------------|--------------------------------------------------------------------|

##### Specific target organ toxicity - single exposure

|                               |                                                                             |
|-------------------------------|-----------------------------------------------------------------------------|
| <b>STOT - single exposure</b> | Not classified as a specific target organ toxicant after a single exposure. |
|-------------------------------|-----------------------------------------------------------------------------|

##### Specific target organ toxicity - repeated exposure

|                                 |                                                                             |
|---------------------------------|-----------------------------------------------------------------------------|
| <b>STOT - repeated exposure</b> | Not classified as a specific target organ toxicant after repeated exposure. |
|---------------------------------|-----------------------------------------------------------------------------|

##### Aspiration hazard

## Kresto Special

|                          |                                                                               |
|--------------------------|-------------------------------------------------------------------------------|
| <b>Aspiration hazard</b> | Not anticipated to present an aspiration hazard, based on chemical structure. |
| <b>Inhalation</b>        | May cause respiratory system irritation.                                      |
| <b>Ingestion</b>         | May cause discomfort if swallowed.                                            |
| <b>Skin Contact</b>      | Irritating to skin.                                                           |
| <b>Eye contact</b>       | Irritating to eyes.                                                           |

### SECTION 12: Ecological information

|                                             |                                                                 |
|---------------------------------------------|-----------------------------------------------------------------|
| <b>Ecotoxicity</b>                          | The product is not expected to be hazardous to the environment. |
| <b>Toxicity</b>                             | The product is not expected to be toxic to aquatic organisms.   |
| <b><u>Persistence and degradability</u></b> |                                                                 |
| <b>Biological oxygen demand</b>             | 378 mg/g                                                        |
| <b>Chemical oxygen demand</b>               | 1525 mg/g                                                       |
| <b><u>Bioaccumulative potential</u></b>     |                                                                 |
| <b>Bioaccumulative Potential</b>            | No data available on bioaccumulation.                           |
| <b>Partition coefficient</b>                | Scientifically unjustified.                                     |
| <b><u>Mobility in soil</u></b>              |                                                                 |
| <b>Mobility</b>                             | The product is soluble in water. The product is non-volatile.   |
| <b><u>Other adverse effects</u></b>         |                                                                 |
| <b>Other adverse effects</b>                | None known.                                                     |

### SECTION 13: Disposal considerations

#### **Waste treatment methods**

|                            |                                                                                                                                                                                                                |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General information</b> | When handling waste, the safety precautions applying to handling of the product should be considered.                                                                                                          |
| <b>Disposal methods</b>    | Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. No specific disposal method required. Reuse or recycle products wherever possible. |

### SECTION 14: Transport information

|                             |                 |
|-----------------------------|-----------------|
| <b>Road transport notes</b> | Not classified. |
| <b>Rail transport notes</b> | Not classified. |
| <b>Sea transport notes</b>  | Not classified. |
| <b><u>UN number</u></b>     |                 |
| Not applicable.             |                 |

### SECTION 15: Regulatory information

#### **Safety, health and environmental regulations/legislation specific for the substance or mixture**

|                          |           |
|--------------------------|-----------|
| <b>HSNO Approval No:</b> | HSR002552 |
|--------------------------|-----------|

## Kresto Special

### SECTION 16: Any other relevant information

|                                                       |                                                                                                                                                                                                                                                                |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General information</b>                            | Only trained personnel should use this material.                                                                                                                                                                                                               |
| <b>Key literature references and sources for data</b> | Where Exposure Scenarios for the substances listed in Section 3 are available they have been assessed for the uses identified in this data sheet or on the product label and the appropriate relevant information is incorporated into this Safety Data Sheet. |
| <b>Revision comments</b>                              | Revision of information NOTE: Lines within the margin indicate significant changes from the previous revision.                                                                                                                                                 |
| <b>Revision date</b>                                  | 10/08/2026                                                                                                                                                                                                                                                     |
