**SECTION 4 FIRST AID MEASURES**

**Description of first aid measures**

<b>Eye Contact</b>	<p>If aerosols come in contact with the eyes:                      Seek medical advice / attention without delay                      Immediately hold eyelids apart and flush the eye continuously with running water.                      Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.                      Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.                      If pain persists or recurs seek medical attention</p>
<b>Skin Contact</b>	<p>If solids or aerosol mists are deposited upon the skin:                      Flush skin and hair with running water (and soap if available).                      Remove any adhering solids with industrial skin cleansing cream.                      DO NOT use solvents.                      Seek medical attention in the event of irritation.</p>
<b>Inhalation</b>	<p>If aerosols, fumes or combustion products are inhaled:                      Remove to fresh air.                      Lay patient down. Keep warm and rested.                      Prostheses such as false teeth, which may block airway, should be removed, where possible, prior to initiating first aid procedures.                      If breathing is shallow or has stopped, ensure clear airway and apply resuscitation, preferably with a demand valve resuscitator, bag-valve mask device, or pocket mask as trained. Perform CPR if necessary.                      Transport to hospital, or doctor.</p>
<b>Ingestion</b>	<p>Immediately give a glass of water.                      First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.</p>

**Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.
