# LEMON DISINFECTANT

HOSPITAL GRADE DISINFECTANT  
KILLS 99.9% OF GERMS

**Contains: Quaternary Ammonium Compounds (1-5%)**

Lemon disinfectant is a lemon scented, commercial grade disinfectant which kills germs and imparts a fresh fragrance.

Lemon disinfectant incorporates non-ionic surfactants which promote cleaning whilst disinfecting. It is also safe to use on all surfaces compatible with water. It can be used on floors, amenity blocks, refuse areas and drains.

Lemon Disinfectant is NON-corrosive and will not harm the skin

ADVICE: Avoid mixing with other cleaning products, soaps, or chemicals - the cationic germicide can be de-activated by soaps and anionic cleansers.
