

# OVEN & GRILL CLEANER

## THE SUPERIOR CLEANER

Contains: 10-30% Sodium Hydroxide,  
10-30% Potassium Hydroxide

Oven and Grill Cleaner is a superior cleaner formulated for industrial applications and achieves a unique cleaning action without the usual fumes associated with this type of cleaner.

Oven and Grill Cleaner is highly effective for the removal of baked on fats, greases and carbon deposits normally found in baking ovens.

### Oven and Grill Cleaner

- ✓ Formulated for industrial application
- ✓ Highly effective for the removal of baked on fats, grease and carbon deposits.
- ✓ Biodegradable

## SUPERIOR CLEANER FOR INDUSTRIAL APPLICATIONS. MINIMAL FUMES.

### Directions for Use:

**Grill Plates:** Pour or brush onto warm grill plate at 60°C. Agitate, then rinse off thoroughly with water.

**Ovens:** Dilute 1:5 with water, brush or wipe on warm oven then heat to 180°C. Allow 5 to 10 minutes contact time, then wipe clean with a wet cloth. Repeat if necessary. For heavy carbon, use an oven brush and the product neat.

\*Use chemical resistant gloves. To remove any traces of alkaline residues, rinse with diluted food grade vinegar.
