

# QKIND Lemongrass Disinfectant Cleaner

Revision date: 19/01/2026

Revision: 4

Supersedes date: 20/05/2021

## SAFETY DATA SHEET QKIND Lemongrass Disinfectant Cleaner

### SECTION 1: Identification: Product identifier and chemical identity

#### Product identifier

Product name QKIND Lemongrass Disinfectant Cleaner

Internal identification AQKLEM

#### Relevant identified uses of the substance or mixture and uses advised against

Application Commercial type 3 in 1 disinfectant, deodorant and cleaner Uses advised against Use only for intended applications.

#### Details of the supplier of the safety data sheet

Supplier QKIND  
2/594 Boundary Road,  
Archerfield, QLD, 4108  
+61 7 3277 7170  
sales@greenstarsupplies.com.au

Contact Person Poisons Information 131126

Manufacturer Eco Pro Australia Pty Ltd  
42 Redcliffe Gardens Drive, Clontarf, QLD, 4019  
+61 7 3283 4511  
sampson\_office@bigpond.com

#### Emergency telephone number

Emergency telephone Poisons Information 131126

### SECTION 2: Hazard(s) identification

#### Classification of the substance or mixture

Physical hazards Not Classified  
Health hazards Not Classified  
Environmental hazards Not Classified

#### Label elements

Hazard statements NC Not Classified

#### Other hazards

This product does not contain any substances classified as PBT (persistent, bioaccumulative and toxic) or vPvB (very persistent and very bioaccumulative).

### SECTION 3: Composition and information on ingredients

### SECTION 4: First aid measures

## QKIND Lemongrass Disinfectant Cleaner

### Description of first aid measures

|                            |                                                                                                                                                                                                                                                                                                        |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General information        | If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.                                                                                                                                                                                                     |
| Inhalation                 | No specific recommendations. If throat irritation or coughing persists, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if any discomfort continues. |
| Ingestion                  | No specific recommendations. If throat irritation or coughing persists, proceed as follows. Rinse mouth. Get medical attention if any discomfort continues.                                                                                                                                            |
| Skin Contact               | No specific recommendations. Rinse with water. Get medical attention if any discomfort continues.                                                                                                                                                                                                      |
| Eye contact                | Rinse with water. Get medical attention if any discomfort continues.                                                                                                                                                                                                                                   |
| Protection of first aiders | Use protective equipment appropriate for surrounding materials.                                                                                                                                                                                                                                        |

### Most important symptoms and effects, both acute and delayed

|                     |                                                                                                             |
|---------------------|-------------------------------------------------------------------------------------------------------------|
| General information | The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation          | No specific symptoms known. Spray/mists may cause respiratory tract irritation.                             |
| Ingestion           | No specific symptoms known. May cause discomfort if swallowed.                                              |
| Skin contact        | No specific symptoms known. May cause discomfort.                                                           |
| Eye contact         | No specific symptoms known. May be slightly irritating to eyes.                                             |

### Indication of any immediate medical attention and special treatment needed

|                      |                                |
|----------------------|--------------------------------|
| Notes for the doctor | Treat symptomatically.         |
| Specific treatments  | No special treatment required. |

## SECTION 5: Firefighting measures

### Extinguishing media

|                                |                                                                                                                                                                                |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media   | The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire. |
| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread the fire. media                                                                                                   |

### Special hazards arising from the substance or mixture

|                               |                                                                                                              |
|-------------------------------|--------------------------------------------------------------------------------------------------------------|
| Specific hazards              | Containers can burst violently or explode when heated, due to excessive pressure build-up.                   |
| Hazardous combustion products | Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. |

### Advice for firefighters

|                                               |                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Protective actions during firefighting        | Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak.       |
| Special protective equipment for firefighters | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to Australia/New Zealand Standards AS/NZS 4967 (for clothing) AS/NZS 1801 (for helmets), AS/NZS 4821 (for protective boots), AS/NZS 1801 (for protective gloves) will provide a basic level of protection for chemical incidents. |

Revision date: 19/01/2026

Revision: 4

Supersedes date:  
20/05/2021

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Personal precautions No specific recommendations. For personal protection, see Section 8.

### Environmental precautions

Environmental precautions Avoid discharge to the aquatic environment.

### Methods and material for containment and cleaning up

Methods for cleaning up Reuse or recycle products wherever possible. Absorb spillage to prevent material damage. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.

### Reference to other sections

Reference to other sections For personal protection, see Section 8.

## SECTION 7: Handling and storage, including how the chemical may be safely used

### Precautions for safe handling

Usage precautions Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Avoid discharge to the aquatic environment.

Advice on general hygiene Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash occupational hygiene before reuse. Wash contaminated clothing before reuse.

### Conditions for safe storage, including any incompatibilities

Storage precautions Store away from foodstuff containers. Store in a cool, dry, well-ventilated place and out of direct sunlight. Inspect regularly for deficiencies such as damage or leaks.

Storage class Unspecified storage.

### Specific end use(s)

Specific end use(s) The identified uses for this product are detailed in Section 1.

## SECTION 8: Exposure controls and personal protection

### Exposure controls

Appropriate engineering controls

No specific ventilation requirements.

Eye/face protection

No specific eye protection required during normal use. Large Spillages: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.

Hand protection

No specific hand protection recommended. Large Spillages: Wear protective gloves.

Hygiene measures

Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.

Respiratory protection

No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn.

## QKIND Lemongrass Disinfectant Cleaner

Environmental exposure controls      Not regarded as dangerous for the environment.

### SECTION 9: Physical and chemical properties

#### Information on basic physical and chemical properties

|                  |                   |
|------------------|-------------------|
| Appearance       | Coloured liquid.  |
| Colour           | Yellow.           |
| Odour            | Lemon.            |
| pH               | 7.0 - 8.5         |
| Specific Gravity | 1.0               |
| Solubility(ies)  | Soluble in water. |

### SECTION 10: Stability and reactivity

|                                    |                                                                                                                                                                      |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | There are no known reactivity hazards associated with this product.                                                                                                  |
| Stability                          | Stable at normal ambient temperatures and when used as recommended.<br>Stable under the prescribed storage conditions.                                               |
| Possibility of hazardous reactions | No potentially hazardous reactions known.                                                                                                                            |
| Conditions to avoid                | Avoid heat, flames and other sources of ignition.                                                                                                                    |
| Materials to avoid                 | Acids.                                                                                                                                                               |
| Hazardous decomposition products   | Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. |

### SECTION 11: Toxicological information

#### Information on toxicological effects

Toxicological effects      Not regarded as a health hazard under current legislation.

#### Acute toxicity - oral

|                                |                                                                  |
|--------------------------------|------------------------------------------------------------------|
| Notes (oral LD <sub>50</sub> ) | Based on available data the classification criteria are not met. |
| ATE oral (mg/kg)               | 48,000.0                                                         |

#### Acute toxicity - dermal

|                                  |                                                                  |
|----------------------------------|------------------------------------------------------------------|
| Notes (dermal LD <sub>50</sub> ) | Based on available data the classification criteria are not met. |
|----------------------------------|------------------------------------------------------------------|

#### Acute toxicity - inhalation

## QKIND Lemongrass Disinfectant Cleaner

|                                      |                                                                  |
|--------------------------------------|------------------------------------------------------------------|
| Notes (inhalation LC <sub>50</sub> ) | Based on available data the classification criteria are not met. |
| <u>Skin corrosion/irritation</u>     |                                                                  |
| Animal data                          | Based on available data the classification criteria are not met. |
| <u>Serious eye damage/irritation</u> |                                                                  |
| Serious eye damage/irritation        | Based on available data the classification criteria are not met. |
| <u>Respiratory sensitisation</u>     |                                                                  |
| Respiratory sensitisation            | Based on available data the classification criteria are not met. |
| <u>Skin sensitisation</u>            |                                                                  |
| Skin sensitisation                   | Based on available data the classification criteria are not met. |
| <u>Germ cell mutagenicity</u>        |                                                                  |
| Genotoxicity - in vitro              | Based on available data the classification criteria are not met. |

## QKIND Lemongrass Disinfectant Cleaner

### Carcinogenicity

Carcinogenicity Based on available data the classification criteria are not met.

IARC carcinogenicity None of the ingredients are listed or exempt.

### Reproductive toxicity

Reproductive toxicity - fertility Based on available data the classification criteria are not met.

Reproductive toxicity - Based on available data the classification criteria are not met. development

### Specific target organ toxicity - single exposure

STOT - single exposure Not classified as a specific target organ toxicant after a single exposure.

### Specific target organ toxicity - repeated exposure

STOT - repeated exposure Not classified as a specific target organ toxicant after repeated exposure.

### Aspiration hazard

Aspiration hazard Based on available data the classification criteria are not met.

General information No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Inhalation No specific symptoms known. Spray/mists may cause respiratory tract irritation.

Ingestion No specific symptoms known. May cause discomfort if swallowed.

Skin Contact No specific symptoms known. May cause discomfort.

Eye contact No specific symptoms known. May be slightly irritating to eyes.

Route of exposure Ingestion Inhalation Skin and/or eye contact

Target Organs No specific target organs known.

## SECTION 12: Ecological information

### Ecotoxicity

Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

### Toxicity

Based on available data the classification criteria are not met.

### Persistence and degradability

Persistence and degradability The degradability of the product is not known.

### Bioaccumulative potential

Bioaccumulative Potential No data available on bioaccumulation.

### Mobility in soil

Mobility No data available.

### Other adverse effects

Other adverse effects None known.

## SECTION 13: Disposal considerations

## QKIND Lemongrass Disinfectant Cleaner

### Waste treatment methods

|                     |                                                                                                                                                                                                                                                                                                                                                                                          |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General information | The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way.                                                                                                                                                                                                |
| Disposal methods    | Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste packaging should be collected for reuse or recycling. Incineration or landfill should only be considered when recycling is not feasible. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of the local water authority. |

### SECTION 14: Transport information

|         |                                                                                                                |
