

The TNG5 is a Level 5 cut resistant glove constructed from Tekora® fibre with a micro GRIPMASTER® nitrile palm.

Tekora® has been specially developed for the purpose of providing gloves which offer superior abrasion and cut resistance over other man-made fibres. As well as offering some of the best protection available, Tekora® gloves are also extremely flexible and comfortable.

The GRIPMASTER® nitrile palm is designed to provide enhanced ventilation for moisture and sweat evaporation, combined with a soft, flexible and secure grip in wet, oily or dry conditions.

Features

- Cutting index performance Level 5
- Tekora® material provides the highest strength abrasion and cut resistance
- Micro GRIPMASTER® nitrile coated palm for superior grip in wet and oily conditions
- Flexible and comfortable to wear
- Aero ventilation technology to aid with moisture and sweat evaporation
- Reusable and washable

Uses include

- Glass, steel & metal industries
- Automotive industry
- Precision machine tooling
- Mining
- Wet & oily applications
- Warehouse pick & pack operations
