

MOULDED RESPIRATORS - P2

AS/NZS1716:2012
BMP 731605

Features

- P2 rated filter to AS/NZ 1716:2012
- Lightweight model promotes greater comfort and contributes to increased wear time.
- The moulded shape with twin elasticised strap design provides a custom fit with fewer pressure points and a secure face seal over a range of face sizes.
- For use against both mechanically generated particulates (e.g. dusts, mists and also thermally generated fumes & smokes.)
- Latex free Straps
- Metal Free Design

The On Site Safety Disposable Respirator is an AS/NZS1716:2012 BSI Certified P2 Disposable respirator.

It is available in three models:

- non valve
- with valve
- with valve and carbon

The moulded design removes the need for a wire nose bridge, making these masks ideal to wear in just about any work environment. The moulded shape is pre-contoured to your nose bridge for that ideal fit.

The soft, V shape, closed cell, PVC foam on the inner body of the mask makes for a comfortable wearing masks. It provides protection against dusts, mists, fumes and smoke. This PVC foam helps the mask adhere to your skin, reducing inward leakage.

The RP2 masks are designed with two elastic straps which secure to the back of your head.

The RP2 series of masks are an excellent choice for work settings involving heat, humidity and long periods of wear.

Optional Carbon Filter

The RP2CV masks is suitable for use where there is strong odours.

Optional Exhalation Valve

The valve design incorporates a downflow air channel which directs exhaled air downwards. This unique design helps reduce fogging of spectacles.

Product Code	Packing	Quantity (masks)	Dimensions (cm)	Weight (kg)	Barcode
RP2	Box	20	14 x 13 x 22	0.28	9335613016225
	Carton	240	41 x 30 x 45	3.80	
RP2V	Box	10	14 x 13 x 18	0.22	9335613016232
	Carton	120	41 x 30 x 38	3.1	
RP2CV	Box	10	14 x 13 x 18	0.25	9335613016249
	Carton	120	41 x 30 x 38	3.4
